

Exploring the ultraviolet Universe with UVIT Science: observation planning and data analysis workshop

Programme:

Session-1: UVIT

9:30 – 10:15: – Introduction to UVIT:– Annapurni Subramaniam

10:15 - 10:45: - Modes of observations with UVIT – Koshy George

10:45 – 11:00: Tea

Session-II: Data and Science

11:00 – 11:30: UVIT Payload Operation Center – Stalin C.S

11:30 – 12:00: –Revealing the nature of Blue Stragglers in NGC 5466 – Snehalata Sahu

12:00 – 12:30: – UVIT imaging of WLM: Clumpy star formation– Chayan Mondal

12:30 -13:00: – UVIT view of star formation in collisional debris – Koshy George

13:00 – 14:00 Lunch

Session-III: UVIT Proposal preparation

14:00 – 14:30: – UVIT Observing proposal (APPS): Stalin C.S.

14:30 – 15:00: - UVIT mandatory checks – Koshy George

15:00 - 15:30: – Demonstration of tools – Rekhesh Mohan

15:30 – 15:45: Tea

15:45 – 17:30: - Discussion
