

SOCIETY MATTERS

From the Secretary

24th General Body Meeting of ASI:

The 24th ASI-GBM was held on February 10, 2006 at Andhra University, Visakhapatnam during the 14th National Space Science Symposium. This meeting was attended by 24 members of the society. In the absence of the President and the Vice-President, the GBM was presided over by the Secretary, and the business was transacted according to the agenda circulated earlier.

Membership matters:

In November 2005, we had circulated letters by post to the members of the Society about membership matters and agenda of the 24th GBM. Some letters addressed to the following persons were returned back informing the non-availability of the addressee. We are trying to update the available information in our records about these members. Any help in this matter will be appreciated.
