

5th Shaw-IAU Workshop on Astronomy for Education

29 November –
1 December 2023

Planned
Sessions
include:

Registration
open now!

Virtual Event

1 **Astronomy Education Research & Evaluation**

This session will focus on research and evaluation into the underlying learning methods and approaches in astronomy education

2 **Teaching Methods & Tools**

In this session we want to hear about the many innovative ways astronomy is being taught, with practical tips on how to implement them

3 **Astronomy Education in Schools in Practice**

This session will focus on astronomy education activities for classroom settings: Tell us about your examples for what worked, and/or about how you developed your activity!

4 **Science Topic: Planetary Climate**

In this session, we will explore the atmospheric dynamics of exoplanets and planets in the Solar System, with special attention to the current issues related to climate change on Earth

5 **Special topic: Astronomy Education Beyond the Classroom**

In this session we will explore the rich variety of ways and places where astronomy is used for educational purposes beyond the edutainment factor as well as initiatives developed by professionals and amateur astronomers that bring astronomy to school settings
