

National Institute of Science Education and Research, Bhubaneswar, India

(An autonomous institute under the Dept. of Atomic Energy, Govt. of India)

*From Earth's Core to
the Far Universe ...*

School of Earth and Planetary Sciences

The School of Earth and Planetary Sciences (SEPS) is an interdisciplinary school at NISER, the first of its kind in India, bringing together Astronomy/Space Science/Planetary Science, Geoscience/Earth Science, and Atmospheric-Oceanic Sciences under the same roof. Faculty members in SEPS are involved in various national and international space missions and ground-based instruments, as well as missions and projects linked to geosciences and climate change research, both nationally and internationally.

**Ph.D ADMISSION
2024-25
(Summer Session)**

**Online Application
Starts: 1st April 2024
Closes: 30th April 2024**
